

Assessing static and dynamic effects of mindfulness meditation on peripersonal space

Principal Investigator: Prof. Luca Simione; Collaborator: Dr. Salvatore G. Chiarella

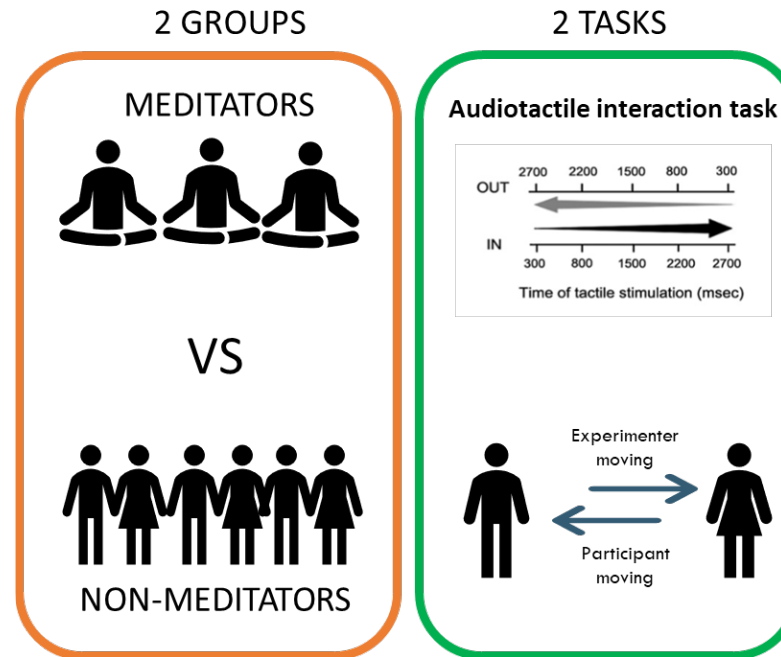

From anecdotal reports of experienced meditators and qualitative studies...

“The experience of the body faded.”

... To scientific investigation on the perceived body boundaries and on its effect on social skills...

... We got some interesting results on the meditation effect on peripersonal and social space!

NO SPOILERS, PLEASE!

COME AND DISCOVER THEM AT OUR POSTER!
